More Than Half Bond Quota Sold

Survey of Manpower Made of the County

All Available Single Men Will Be Called for May: Married Men to Follow

The Randall County Selective Service Board spent Friday afternoon in making a survey of the manpower situation in the county with a view of meeting future calls.

A group of men will leave next Monday afternoon for Lubbock to take their physical examination. The call was for 30 men, but this was later reduced to 22 men. The county will receive credit for several who have volunteered since the last call. About 18 men are expected to leave on this call.

The largest call in several months has been made for May 25. This call for 32 men will likely not be filled because of the large number of single men who have been deferred on account of their farm work. The local board has never failed to complete a call, but decided Friday to send only the single boys available in May. If the quota is not filled additional men will be sent on the June call. All boys in school and college men who were deferred to the end of the year will be called.

The local board will exhaust the pool of single men in the county with the May call. From then on, married men will be called to meet the demands of the armed forces. According to word from Selective Service headquarters in Washington it is indicated that all men 18 to 38 years who are not engaged in essential industries will be in some branch of the service before the end of the year. Family dependency no longer counts under Selective Service.

A tough job confronts every local Selective Service Board as the members survey the manpower situation and realize that the time is at hand when families must be broken up in order to secure the needed men for the various branches of service.

Dr. Donnell Is Winner in Show

Milking Shorthorn Cow of Donnell Herd Topped Sale Held at Plainview Thursday

DR. C. E. DONNELL

The entries of Dr. C. E. Donnell in the Milking Shorthorn division of the Plainview Dairy Show won 12 places in this division. Three of the highest awards of the show went to the Donnell herd. Dr. Donnell has spent 31 years in the development of this outstanding herd.

Senior grand champion cow, junior champion bull and junior grand champion cow were the top honors which were won by the Donnell herd.

The grand champion cow was bought by a breeder at Lebanon, Oregon, at the record price of the show, $1,100.

Spring Term of District Court Opens Monday

The spring term of District Court will open Monday at the court house.

Judge Henry S. Bishop will swear in members of the grand jury Monday morning, and this group will start to work investigating crime conditions in the county. District Attorney Jas. Lumpkin will direct the grand jury.

One case has been set for trial, and a petit jury has been notified to appear Tuesday morning. No Jury has been called for the second week, although names have been selected in case there should be business for the second week.

Davis Hill Named Rotary President

Davis Hill has been elected president of the Rotary Club at Marshall for the coming year. He takes office July 1, and will attend the Rotary International Convention at St. Louis in June.

Davis is the son of Dr. and Mrs. J. A. Hill. He is a graduate of West Texas State and taught in Amarillo and White Deer before going to Marshall as principal of the high school.

Lieut. W. Holmes Smith Is Promoted

Lieut. W. Holmes Smith has been promoted from 2nd to 1st Lieutenant. He is on the instructional staff of the air force at San Antonio.

Lieut. Smith volunteered last July and after taking basic training at Miami Beach, Fla., was transferred to San Antonio. He was formerly a member of the West Texas State faculty.

BOYS ARE PROMOTED

Three Randall county boys have been promoted in the army and have been transferred. James Shelnutt, Ray Long and Alma Ray Morgan have been in training at Camp Custer, Battle Creek, Michigan. They were promoted to Private 1st Class and transferred to New York City.

Lt. and Mrs. Sherman R. Higdon, and son, of San Angelo, are here visiting their family and friends. Lt. Higdon is flight instructor at Goodfellow Field.

WAACs Recruiting Party Here April 28

A recruiting party for the WAACs will be at the Southwestern Public Service Co. office next Wednesday afternoon, 2 to 7:30 p. m.

Randall county's quota of four candidates will be sought at that time.

There have been very few candidates for this division of the army from Randall county so far, and an effort will be made to enlist this number before the end of June.

STORK SPECIAL

A daughter, Dorothy Ann, was born to Mr. and Mrs. Marion Higdon, at an Amarillo hospital, Monday night.

A daughter was born to Mr. and Mrs. J. M. Winstead at an Amarillo hospital Tuesday.

Dean Lowes Is In the Marine Corps

DEAN B. LOWES

Dean B. Lowes, PhM3c, is with the Marines in the South Pacific area. He volunteered in the navy last year, and after several months' training was transferred to the Marine Corps. He is the son of Mrs. Ida Lowes of this city.

Inspection of Tires Coming Up For All Owners

All "A" book holders must have second official tire inspections by Sept. 30, 1943. Subsequent inspections for A book holders will be once every six months. "B" book holders must have second official tire inspection by June 30, 1943. "C" book holders must have official tire inspection May 31, 1943. Second official tire inspection for "T" book holders must be made 60 days from Feb. 28, 1943, or every 5,000 miles, whichever comes first.

Cpl. Preston Springer Received Discharge

Cpl. Preston Springer returned home Friday night, having received his discharge from the army.

Cpl. Springer went from this county more than a year ago. He was injured in Australia when the Japs raided an air field. After returning to America he received a medical discharge from service.

COLLISION ON HILL

A car crashed into a truck on the hill north of Canyon early Monday morning. Lowell Wells of Amarillo, driver of the car, was injured and taken to a hospital. Three persons riding with him were not seriously injured.

E. E. Davis of Amarillo was owner of the truck.

NAVY VOLUNTEER

Billie Jo Hunter has volunteered for the navy and will report for duty on May 15. He recently returned from Seattle where he has been working.

Rain Comes to Aid of Wheat

Heavy Hail Falls Over Considerable Section of Plains Friday Afternoon

Rain Friday afternoon and night in Canyon amounted to .65 of an inch.

The rainfall varied over the county, with practically three inches falling in the south section of the county.

Considerable hail fell over a large section of the county. Wheat was damaged by the hail to some degree in sections southeast of Canyon. The hail measured three inches on the ground at places near Happy, and more damage was done to the wheat in that section.

A heavy electrical storm accompanied the rain in the early evening.

A cold wave accompanied the rain, with the temperature dropping to near frost Tuesday morning. The mercury stood at 38 degrees above zero Monday morning, but registered 34 degrees above zero Tuesday morning.

The temperature skyrocketed yesterday afternoon, following the near freezing temperature of Tuesday. The mercury rose to 85 degrees, which made the afternoon very uncomfortable.

Three Men Are Accepted for the Army Last Week

Three men were accepted for special duties by the army when they passed their physical examinations at Lubbock.

Lynson Easton Thomas, Jr., will report to Ft. Sill today.

George Henry Vineyard and Robert Alfred Bellah leave Friday morning for Fort Sill.

N. E. McIntire Had Stroke Yesterday

N. E. McIntire, pioneer druggist of Canyon, was found unconscious on the floor at his home yesterday morning at 9:15 o'clock. He had suffered a stroke.

Mr. McIntire was taken to an Amarillo hospital. He was reported this morning to be greatly improved. Mrs. McIntire believes he will be able to return home in a few days.

MARRIAGE LICENSES

Albert E. Richmond and Miss Peggy Jo Haynie, April 17.

Gregory Salas and Miss Mae Jean Golightly, April 20.

James Pagano and Miss Addie Ford, April 20.

CAPT. NEBLETT TO LOUISIANA

Captain R. A. Neblett is in Louisiana on army maneuvers and will be stationed there until June 6.

C. A. Duval visited in Levelland over the week end with his wife and son. Mr. Duval is manager of the West Texas Gas Company here.

Twenty-five Schools Will Send Contestants To Meet Saturday

No District Meets This Year Will Bring a Larger Number Students to W. T.

With the registering of twenty-five schools for participation in the literary events, plans are being made for one of the largest Regional Meets ever seen at West Texas State College.

Boone McClure, Director-General, stated that the trophies for the meet have been ordered from Dallas. At the present time, the complete order cannot be sent, but the awards should arrive in about one month. Those that do not arrive by Saturday will be mailed to the winners as soon as they are received.

There will be a registration fee of 25 cents for each event entered, and all contestants for the Literary Events will register in Room 107 of the Administration Building, (Registrar's Office.) Registration must take place before participation in any event.

The following schools have entered the events:

Abernathy—debate, declamation, extemporaneous speech, typing, track and field.

Amarillo — debate, declamation, extemporaneous speech, typing, shorthand, one-act play, tennis, track and field.

Brisco—tennis (dual with Canadian), track and field.

Canadian—girls' tennis (boys' tennis matched in dual with Brisco).

Canyon—declamation, ready writers, typewriting, track and field.

Claude—tennis, track and field.

Crowell—one-act play.

Dalhart—typing, shorthand, tennis.

Denver City—tennis.

Dumas—tennis, track and field.

Hart — declamation, extemporaneous speech (these entries are from the senior high school. Junior high school is not a member of the League).

Kress—declamation, ready writers, girls' tennis (boys' tennis matched in dual with Plainview).

Lamesa—declamation, ready writers, type writing, shorthand, track and field.

Lockney—track and field.

Lubbock — debate, declamation, typewriting, shorthand, track and field.

New Home (Tahoka)—declamation, typewriting.

Olton—track and field.

Pampa—declamation, ready writers, track and field.

Pep—declamation, ready writers.

Perryton—one-act play.

Plainview—tennis (entered first in dual with Kress), track and field.

Seminole—typewriting, shorthand, tennis, track and field.

Union (Lamesa)—track and field.

Wellington — typewriting, shorthand, track and field.

White Deer—track and field.

Service men will be admitted to all of the Regional Meets free.

President Tours Army Camps and Visited Mexico

President Roosevelt is on another tour of inspection of war camps, and visited Mexico Tuesday night. Newspapers were advised 10 days ago of this trip, but were warned that no information was to be published.

For the first time in 33 years a President of the United States conferred with a President of Mexico. Both spoke at a banquet in Monterey, Mexico, Tuesday night, expressing the friendship which existed between the two nations, and the determination to win the war.

President Camacho accepted the invitation of President Roosevelt to visit the United States following their conference in Monterey.

Miss Phyllis Albers was called home from Omaha last week by the death of her mother, Mrs. E. H. Albers. She will remain at home instead of returning to Omaha.

County Must Sell $40,00 Bonds

All Citizens Are Called Upon to Do Their Best to Complete County's Quota

Randall county citizens have bought more than half of the Second War Bond quota for April.

The total sales up to Tuesday night amounted to $53,106. The quota for this special drive is $93,0000.

Co-chairman R. H. Wright and W. C. Black are urging that members of the four teams which are selling bonds shall see as many people as possible this week and secure their subscriptions.

The number of sales have increased every day since the drive started on April 12. But the time is now half gone, and nearly $40,000 worth of bonds remain unsold.

Randall county met its quota throughout 1943, but has been running a little behind in sales this year.

Every citizen is urged to buy bonds at once.

Point Changes Are Made Under OPA Direction

The OPA went to work Tuesday on a readjustment of meat point values after ordering a reduction of one-third to over 50 per cent in the values of frozen fruits and vegetables and all rationed soups.

Announcement of the new point table, expected the latter part of next week, is expected to reveal an increase in the five-point value of hamburger and a lowering of the point values of ham and bony cuts, such as spareribs, which have not been moving into customers hands.

The cut on frozen fruits, vegetables and soups becomes effective at 12:01 a. m. tomorrow.

Consumers will find the popular-size can of tomato soup selling at three points and all other soups at four points. In addition, the point values of dried and dehydrated soups were cut in half.

Blackeyed peas were removed from the list of rationed dry beans, peas and lentils, while the point value of the latter commodities remains unchanged at four points a pound. The action was necessary, OPA said, because blackeyed peas are highly perishable in warm weather.

All kinds of frozen fruits were reduced from 13 points per pound to six points. Frozen baked beans were cut from eight points to four points per pound, while peas and all other frozen vegetables were reduced from 10 points to four points for a 12-ounce container.

Alterations in the processed foods point values climaxed a rapidfire series of developments on the food rationing and civilian supply fronts.

OPA announced that blue stamps G, H, and J, totaling 48 points, will become valid for canned goods beginning next Saturday and will be good throughout May. Blue stamps D, E, F, which have been in use since March 25, expire on April 30.

Price Administrator Prentiss M. Brown disclosed that war ration book 3, designed to replace book 1 when it runs out, will be distributed through the mails to 120,000,000 individuals beginning late in June and ending July 21, while book 4 will be sent out during August or September.

Granary at the Michael Farm Is Burned Friday

Lightning struck a granary at the E. A. Michael farm home east of Canyon Friday night during the electric storm.

The building was burned, together with 350 bushels of oats and barley, and all of the binder canvasses.

The Michael family was away from home at the time, but N. E. Root father of Mrs. Michael, was in the house. He was knocked to the floor by the bolt of lightning but suffered no injuries.

IN AMARILLO HOSPITAL

J. C. Neal is a surgical patient in an Amarillo hospital.

Mrs. C. L. Wesley, surgical.

James M. Slaughter, surgical.

PURDY IS DISCHARGED

Dorman Guy Purdy has received a medical discharge from the navy. He was released at Williamsburg, Va.

Mr. and Mrs. Joe Carver and family, and Mr. and Mrs. Dellas Zachry spent Sunday in Fritch visiting Mr. and Mrs. Lee McLaury and family.

Increase In Car Money

1943 Tag Sale Is Ahead of 1942

Collector M. E. Cantrell Hopeful That $500,000 Will Be Reached by Harvest

More money has been collected for car, truck and bus plates so far this year than was collected through 1942. This report was made Monday by Tax Collector M. E. Cantrell to the State Highway Department.

The collection of plates up to Saturday night amounted to $44,876.46. The total collected for 1942 amounted to $44,614.96. With 10 months to go in the fiscal year covering car plates, Mr. Cantrell believes it will be possible for Randall county to reach the $50,0000 mark. This is the maximum amount of money which may be retained by counties.

Mr. Cantrell states that the increase in plate fees was due to the fact that more 1943 plates were sold for heavy equipment, trucks and busses. Many farmers have not bought plates for their trucks, waiting to see how the wheat will turn out. If there is another big wheat crop the demand for truck plates will bring in a considerable amount of money during the summer.

Fewer car plates were sold this year than usual, but this decline was expected owing to the number of cars which are out of operation, and only a very few new cars have been sold during the past year.

8 Golden Rules of Food Rationing

1. Share your food with our fighting men.
2. Shop early in the week at hours when the stores are least busy, and no oftener than you need to.
3. Make up a shopping list and add up the points BEFORE you shop.
4. Plan your family's diet carefully—see that everyone gets enough nourishment. Make up menus for the week.
5. Include fresh fruits and vegetables, cereals, fresh fish, poultry and other unrationed foods where you can.
6. Plant a Victory Garden. Do all the home canning possible.
7. Don't blame your grocer or butcher for wartime inconveniences.
8. Take care of your ration books. Keep a record of the serial numbers and notify your ration board at once if a book is lost.

Cpl. Billy Hill of Abilene, was here Saturday and Sunday visiting Mr. and Mrs. Clay Cooper and friends.

Masons to Give Museum Exhibit

Khiva Shrine Temple Decides to Assemble Historical Materials

Another important gift to the Panhandle-Plains Museum here has been pledged by Khiva Temple of the Mystic Shrine. It will be a Masonic collection.

The suggestion for the gift was made by Floyd V. Studer of Amarillo, curator of the Panhandle-Plains Historical Society, who has been assigned to write a Masonic history of Panhandle activities. Decision to accumulate the materials was made by Potentate T. W. Gilstrap's executive committee.

Dr. J. A. Hill and Dean R. P. Jarrett attended the meeting as guests of Mr. Studer. Dr. Hill reviewed the history of the museum. Dr. Jarrett is a charter member of Khiva Temple.

E. W. Woods, who is training in Athens, Georgia, was one of those on the honor roll.

Mrs. Dalby Flemming and children and Mr. and Mrs. George Vineyard visited in Claude Sunday.

Member of National Editorial Association and Texas Press Association.

"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation indivisible, with liberty and justice for all."

When will the Germans be run out of North Africa? Too many Americans believe this will be another easy job, something like "whipping the Japs before breakfast." While the United nations are doing a fine job, let it be remembered that the Germans still have about as many men in Africa as we have; that they have shorter communications lines; that their situations are well fortified; that we are required to hold large forces along the Spanish lines watching Franco. While we are all confident that the Germans will soon be whipped in Africa, the fact remains that it will be a costly operation in men and materials. We have air superiority, but be it remembered that Malta, right under the nose of Italy, has been held by the English in face of the fact that it is the heaviest bombed spot in the world. In spite of all the modernized war machines of destruction, the final victories in this war have been won by superior infantry and artillery. Planes and tanks are necessary adjuncts in modern warfare, but the old "foot" soldier has never been replaced when it comes to taking and holding vital positions.

Hitler now has a program in Europe after the war. He has had such a program all along, but when he was conquering nation after nation, there was no use telling his minor partners of his war aims. A Hitler ruled Europe would mean just one thing—supremacy of Hitler and his bloody band of arrogant Germans. This partnership stuff is well demonstrated in Italy, where Rommel is staying in a magnificent mansion, while the Italian general stays in the servant's quarters. That is the way Hitler looks upon his partners in the war, and the way they will be treated if Hitler wins. In a gang of thieves and murderers, the strongest always runs the bunch. So far Hitler is by far the strongest in the group of outlaws, and will run the show if the Axis wins, just as he has done from the start. His program has nothing new for the members of his gang.

More Bibles are being sold in America today than at any time since World War I. Church attendance generally is increasing throughout the nation. It is too bad that it takes the death and destruction of war to make humans realize how helpless they really are.

You can fool yourself a lot easier than you can fool others.

What About Our Soldiers?

How does the attitude of Canyon people impress the soldiers who are stationed here as students, and the scores of soldiers who visit Canyon every week?

Two compositions in English, written by soldier-students in West Texas State College make a pretty clear answer to this question. While scores of these fine young men have expressed their appreciation of the treatment given them here, these compositions are printed as examples of what the men in uniform are thinking today:

ATTITUDE OF CIVILIANS TOWARD SOLDIERS

At a time like the present there are more of our young men in uniform than there are young men in civilian clothes. These men have left schools, homes, and profitable jobs to take the call to arms.

In many towns, where large numbers of soldiers are stationed, the right attitude toward these young men does not prevail. In many of these places, the soldiers who are training and working hard are not trusted by many individuals. They are something looked down on by many people, who just have not taken time to think what that "G I" soldier stands for.

These things are prevelant mostly in larger towns; while on the other hand, the small town is a place the soldier may call his complete home. In a place such as Canyon, where there are a very few service men, the entire town makes a soldier feel completely at home and at ease. Everyone is eager to lend a helping hand to make the life of the soldier as home-like as possible. A service man can walk about the town and everyone he meets speaks to him and very often invites him to their homes or church.

On the whole the public has the proper attitude toward our service men, but there are still very many who have never realized just how important our soldiers are and thus they sometimes treat them in an improper manner.

FOR A SOLDIER

The attitude of the American people concerning a soldier is along the wrong channel. Yes, the American people do not realize the importance of buying United States War Savings Bonds.

The soldier did not thing strongly along these lines until he was inducted into the army. His attitude towards buying bonds was the same as yours. Ten per cent of your check is a great deal. Ten per cent was also a great deal to him. Now, as he can see, the ten per cent was a very small amount compared to the training, the food, the shelter and the equipment he has been given.

You have been good to him. You have sent him food, books, games, letters and you have even invited him into your homes. All this is important to keep up his morale, but what about his tools. Yes, tools. The very important tools which he must use in his job of defending you and your family against the enemy.

Many people have been made famous for their work in science, art, architecture and other skills. You have heard of them only for one reason. They had the proper tools to do their job completely. With these facts in front of you, it should be very easy to put forth all you can towards making our soldiers the best and and most modern equipped soldier of all time. If you do this now, the American soldier can be famous. The important point in his rise to fame will be the protection of our democracy, and he will make America the safest place in the world to live.

We are in this global war through no fault of our own, unless it be that we did not start preparing soon enough. We had an army of 160,000 during the depression, and under the isolationist theory we refused to begin to prepare for war until it was evident that Hitler intended whipping us before we could get ready to meet him. We are in the war and must win, or be whipped and become slaves to the Axis powers. All of us want to win. Some of us are not willing to pay the price of victory, but are content to let the other fellow pay the bill. It takes money to win a war, such as we are fighting. Right now our government is asking for a loan of 13 billions of dollars. Uncle Sam will pay a small per cent of interest on this loan. It is not a big return, but if we do not win the war, every American dollar, and every foot of American property will be confiscated by the Axis. It is better to loan now a part of what we have to our government than to become slaves to the Germans and Japs because of our indifference to the war needs.

Freezing men to vital jobs should have been done months ago, instead of waiting until this late hour. Vital industries have been bidding against each other, as a result that men jumped into more profitable jobs as the opportunity presented itself. No one blames the men for getting the highest wage possible. While the government has been toying with the problem of ceilings, it has refused, until recently, to do any curbing on the vital costs in manufacturing — wages and raw materials.

The person with high character does not have to run around boasting about his reputation in his community. Character speaks for itself; reputation is valuable, but sometimes does not reveal the true character.

Help Keep Canyon Clean!

Fourth term talk for the President increases. The President is too smart a politician to let his intentions be known. The Democrats will not hold the national convention until after the Republicans name their candidate. In this manner, Roosevelt holds a threat over G. O. P. and virtually dictates the type of the Republican candidate. While the old guard wishes to name a strong isolationist, they will not dare to do so in the face of the threat of the President to run for a fourth term. Roosevelt could be re-elected over any isolationist, and no one knows this better than the Republican leaders.

We are hearing a lot about the invasion of Europe. Most of the talk is for the purpose of keeping Hitler guessing. The invasion of North Africa came as a complete surprise to Hitler. When the Allies get ready to invade Europe, they will select the spot, and Hitler will not be forewarned.

The Japs promise to bomb American cities. They have not announced what will become of the planes which they intend sending on this mission.

Tierra Blanca

Imogene and Dyann Hand spent Sunday with Willie Mae and Frances Holman.

Helen Jo Cox spent Friday night with Mary Alice Campfield.

Travis Montgomery visited Sunday evening with Henry Hand.

Esther Johnson spent Monday night with Louella Pitt.

Mr. and Mrs. Joe Cox and Helen Jo visited Sunday with Mr. and Mrs. G. R. Cox of Canyon.

Willie Mae Holman spent Friday night with Helen Oglesby.

News In Canyon 25 Years Ago

(Taken from the files of the Randall County News of April 18, 1918)

The two months drive for Red Cross funds ended Monday. The people were asked to contribute $10,000 to keep the sewing room and other Red Cross work going in the county. When the drive came to an end, a total of $15,000 had been contributed by the people of Randall county to this great cause. Practically every person in Randall county gave something to the fund.

The campaign to sell $55,850 of Third Liberty Loan Bonds is practically completed.

Rev. J. S. Stapleton has been called by the Presbyterian Church.

Four men will go to the army April 26: Ray Campbell, Pete Hutchinson, William Ford Rippy, Wm. Henry and Clarence Boehning.

Henry C. Gamble and Wayne Cousins have received their commissions as lieutenants in aviation.

Guy Conner and Edgar Roberts reported to the navy at New Orleans.

C. R. Flesher, county chairman of the Thiird Liberty Loan drive, has received blanks on which he is directed to report all citizens who have bought their share of bonds.

Three Officers of Detachment Get Advances in Rank

Promotions have come to three officers of the Air Forces training detachment since they arrived.

First Lieut. John W. Worsham of San Antonio has been promoted to a captaincy. He is the detachment medical officer. He was commissioned as a first lieutenant on July 27, 1942, and sent to the Army flying school at Waco.

Lieut. Manly D. Ballard, adjutant of the local detachment, has been promoted to first lieutenant as of April 12. He was commissioned Sept. 16, 1942. His home is at Abilene, where he attended Abilene Christian College.

As previously announced, Lt. Milton E. Wray of San Marcos was promoted to first lieutenant April 9. He was commissioned on Sept. 16, 1942.

Highland News

Wilfred Batenhorst came home Thursday for a week's furlough. He is in the Navy and has been stationed out from San Diego, Calif.

O. J. Brown, who has been ill at St. Anthony's hospital is improving and hopes to be able to come home this week.

Mrs. Art McVea, who is still in Oklahoma with her mother, writes that her mother's condition is very serious.

Harry Fuqua had dinner with Bobbie and Neal Walton Sunday.

The Highland H. D. Club had another "42" party and sponsored a Bond Rally for Oldham county last Friday night. A good crowd attended and $1400 worth of bonds were sold that night.

A play will be given at the Wildorado school auditorium this Friday night, April 23rd.

A large group of friends and relatives visited at the Henry Gatenhorst home Sunday.

Mr. and Mrs. Raymond Debenport and David Thompson visited the Fuqua home Sunday.

Mrs. Cook and Mrs. Fuqua attended the Red Cross and H. D. Club meeting at Mrs. Jess Hill's last Tuesday.

Oldest Bird Refugee British

Nearly 1,000 swans are in the oldest bird sanctuary in the world, at Abbotsbury, England.

Tire Situation Is Still Serious

It seems that many car and truck owners think that when a tire inspector recommends them for a new tire that it is up to the War Price and Ration Board to grant them a permit. In fact all the inspector can do is to certify your need for a new tire, thereby authorizing you to make application with the Board. Then the Board does not question your need for the tire or tires in so far as the condition of your car or truck is concerned, but it is up to them to select, on the basis of the National Emergency, the few permits their fixed quota will allow.

The situation is so serious that the Board can no longer consider the interests of the individual applicant, but must base each permit upon the applicant's importance in the National Emergency. In other words, the lack of a tire may be fatal to the applicant's work or business, but unless his work or business is sufficiently vital to National Emergency the Board must not grant the request.

Applicants must bear in mind that the Board is fully aware of the situation throughout the country. They know that practically all trucks in the county are in need of one or more tires, and that each individual request is necessary. They know that, generally speaking, truck tires in this county are worn out and that it is very vital that trucks be kept in operation. But their action is restricted absolutely to the quotas assigned monthly to the county.

Jowell Items

There was a nice rain in the Jowell community Friday night.

W. F. Bonds, G. J. Bonds and T. J. Bonds were called to Waco Sunday by the death of their niece, Eulalla Ponder.

Mrs. T. J. Bonds and children and Mrs. G. J. Bonds and children visited in the home of Mrs. W. F. Bonds Sunday.

Jim Westfall has returned to the Jowell community and is staying with Mrs. E. B. Fee.

F. B. Davis of California visited his brother, Earl Davis, the first part of this week.

Lowell Johnston and Douglas Walker spent Sunday night with Eugene Bonds.

Phyllis Jean Hurst gave a slumber party Friday night. Because the weather very few attended, those were Muriel Faye Cope, Laverne Hinders and Earlene Davis.

Mr. and Mrs. Earl Davis and children spent Sunday with Mrs. Davis' mother, Mrs. Mary Burtz of Canyon.

Mr. and Mrs. Buron Fewell of Canyon visited with Earl J. Davis and family Monday evening.

THE 2ND WAR LOAN DRIVE IS ON!

Come on, Let's WIN this war!

★ ★ ★ ★ ★ WAR FINANCE COMMITTEE ★ ★ ★ ★ ★

IF we should lose the war, life would not be worth living.

"But we won't lose it," you may say.

Listen, brother—in this world nothing's sure, unless you make it so.

This month it's up to us here at home to do our part, and then some, to make Victory surer—and quicker! To do it, we've got to lend Uncle Sam 13 billion *extra* dollars.

It isn't easy—but war isn't easy and Victory isn't cheap. It takes money—and more money—to buy planes, ships, tanks, guns and a million other things our boys must have to deliver that final, paralyzing knock-out punch.

And it's a whale of a lot easier for us at home to lend our money than for our boys to fight through the hardships and dangers of deserts, swamps, jungles, ice-fields and sub-infested seas!

Just think! Every extra bond you buy will help provide the weapons to save the lives of many American boys! Isn't that alone worth every effort, every economy you can make? You bet it is!

There are 7 types of U. S. Government securities to meet the needs of every purse. They offer the finest investment in the world—liberal interest, plus securities guaranteed by Uncle Sam himself.

A volunteer worker for the 2nd War Loan Drive may visit you soon. Welcome this unselfish patroit—and buy all the bonds you can. But don't wait for that call. Go—today—to your bank, investment dealer, broker, post office or bond booth and invest to your uttermost limit. Even if it hurts, it's nothing compared to the agonizing impact of a bayonet thrust, a flesh-tearing torpedo fragment or a bone-crushing bullet.

So dig deep, brother, and do it NOW!

There are 7 different types of U. S. Government securities—choose the ones best suited for you!

THEY GIVE THEIR LIVES . . . YOU LEND YOUR MONEY!

MISS ESTHER RUDOLPH TO MARRY SATURDAY

Announcement was made Saturday at Borger of the engagement of Miss Esther Rudolph to George B. Ritchie of Guymon, Okla. Miss Rudolph is a teacher in the Phillips schools and Mr. Ritchie is a business man of Guymon. Both formerly lived at Stratford.

The wedding ceremony will be said in the Phillips Methodist Church Saturday afternoon.

The bride-to-be has a degree from West Texas State and her Master's degree from the University of Michigan. She is an English and Speech teacher in the Phillips schools and will continue with her school work. Miss Rudolph was a sister of the late Mrs. Dan K. Usery and has made her home in Canyon for several years.

MRS. EARL CRIST IS HONORED AT TEA

Mrs. Earl Crist was one of the honorees at a tea given Sunday afternoon in Amarillo. Mrs. Crist moved to Canyon a few days ago, living with her sisters, Misses Belle and Olive Schramm, until school closes. Mrs. Crist and son will then join Mr. Crist at Flagstaff, Ariz.

Misses Belle and Olive Schramm were among the guests at the Sunday tea.

1930 BRIDGE CLUB WITH MRS. SAVAGE

Mrs. F. E. Savage entertained the 1930 Bridge Club in her home Friday.

With the accent on spring, the decorations were of spring flowers.

A salad course was served to Mrs. A. W. Sternenberg and Mrs. D. L. Echols, guests; Mrs. C. R. Burrow, Mrs. J. L. Duflot, Mrs. J. S. Humphreys, Mrs. S. L. Ingham, Mrs. R. P. Jarrett, Mrs. T. B. McCarter, Mrs. D. A. Shirley, Mrs. R. A. Terrill, Mrs. Ann Wofford, Mrs. Clyde Warwick and Mrs. Savage.

UMBARGER H. D. CLUB WITH MRS JANSEN

The Umbarger Home Demonstration Club met in the home of rMs. W. P. Janssen, April 8.

An exhibit of various garments made from old suits, dresses and other materials, were displayed by Miss Frances Wilroy. Placket and hem finishes were also on display, and discussed. Correct seam, hem and placket finishes, always help the attractiveness and durability of a garment.

Refreshments of sandwiches, oatmeal cookies and coffee were served to Mrs. Clarence Beckman, Mrs. Frank Begert, Miss Wilroy, Mrs. George Vorwald and Mrs. Henry Bracht.

The next meeting will be with Mrs. Vorwald, May 13, when drying fruits and vegetables will be demonstrated.

REUNION GIVEN IN HONOR OF G. G. FOSTER

A reunion was held in the home of Mr. and Mrs. G. G. Foster Saturday in honor of Mr. Foster's 73rd birthday.

Those present were Mr. and Mrs. G. D. Foster of Colorado, Texas; Mrs. Fred Perryman of Austin; Paul Foster of Sedan, N. M.; Mr. and Mrs. R. W. Foster of Amarillo; Mr. and Mrs. Hosea Foster and Mr. and Mrs. J. O. Parker.

MRS. MARY BURTZ HONORED AT DINNER

A surprise birthday party was given for Mrs. Mary Burtz by her children Sunday.

Those attending were Mr. and Mrs. Earl J. Davis and children of Happy; Mr. and Mrs. W. H. Bailey and children of Amarillo; Mr. and Mrs. Ancil Shewbert of Dalhart; Mr. and Mrs. Earl Burtz and son and Mr. and Mrs. Buron Fewell and children of Canyon.

Mr. and Mrs. C. W. Fewell of McAdoo, were unable to attend.

EDGETOWN H. D. CLUB WITH MRS. HORN

The Edgetown Home Demonstration Club met in the home of Mrs. J. W. Horn, Friday.

Mrs. O. M. Solomon gave a report on Texas Agriculture. Miss Frances Wilroy had on display many made over garments, the purpose was to show that old clothes could be made new by combinations of color and materials.

Those present were Mrs. J. D. Key, Mrs. Mary Eldridge, guests; Mrs. E. B. Anthony, Mrs. L. L. Gore, Mrs. W. L. Rice, Mrs. Solomon, Mrs. W. I. Wester, Mrs. T. T. Fain, and Mrs. Horn.

The next meeting will be Friday, April 23 with Mrs. Rice.

CENTERVIEW H. D. CLUB WITH MRS. WESLEY

The Centerview Home Demonstration Club met in the home of Mrs. G. E. Wesley, Friday afternoon at 3:00.

Those present answered the roll call by naming varieties of dahlias. Mrs. E. W. Schaeffer gave directions on preparation of soil for planting dahlias, while Mrs. Serena Bryan gave a report on planting directions. Mrs. J. W. Wesley discussed the care of plants and how to make them grow.

The next meeting will be the first Friday in May, with Mrs. Fred Magness. Miss Frances Wilroy will give a demonstration on the drying of fruits and vegetables.

EASTER MUSIC AT THE PRESBYTERIAN CHURCH

The choir of the Presbyterian Church will assist the pastor in an Easter Praise Service, on Sunday night at 8 o'clock.

A solo by Miss Maude Cuenod, duet by Misses Florence Clark and Beth McCaslin, anthems by the choir, and Easter hymns by the congregation, will bring messages of hope, peace and victory.

At the Sunday morning services, the pastor will have as his sermon "The Victorious Christ" and the choir will sing special Easter songs.

H. M. PARKER, JR. TRANSFERRED

Pvt. H. M. Parker, Jr., has been transferred from Sheppard Field, to Oklahoma City where he is taking college training before going to an Army Air Corps classification center.

SOCIAL PIONEERS WILL MEET APRIL 29.

The 2nd quarterly meeting of the Social Pioneers will meet in the home of Mrs. Will Myers, Thursday, April 29.

Wayside Items

Sister Misener of Amarillo delivered a good sermon Sunday morning. She was accompanied by her two daughters, Miss Thelma Dean and Mrs. Dorothy McBroom and her two little sons; also Ralph Foster. We hope they come again. They were from the Assembly of God Church.

W. R. Franklin is attending the District Council of the Assembly of God Church in Plainview this week.

Word has been received that J. C. Knox is stationed in India.

Lyman York McGehee is home on furlough.

Mr. and Mrs. W. R. Franklin were Happy and Canyon callers Friday evening.

Mrs. Ida Sluder had as her guests Sunday in the W. R. Franklin home, John McGehee, also Mr. and Mrs. W. H. Hamblen and Mrs. Roy Dodson.

Mr. Heisler still very low in the Tulia hospital.

Alfred Hamblen and children of Floyd, N. M. visited over the week end in the parental W. H Hamblen home.

Mr. and Mrs. Woodrow Malone, his father and mother and brother Tom, of Amarillo were callers in the J. R. Stockett and Grady Kennedy homes Saturday night and Sunday. Woodrow is to leave Monday to take his finals. He will be in the Navy.

We had a fine rain Friday evening, but no hail. Everything is growing nicely.

Tarlton Plays Violin Solo In Amarillo Concert

Miss Jean Tarlton, sophomore music major at West Texas State, was presented as a soloist at a concert presented by the Amarillo Junior Symphony Orchestra last Tuesday night.

Miss Tarlton was selected as the soloist for this concert in a contest sponsored by the Amarillo Philharmonic Orchestral Association last Sunday. Robert Louis Barron of the orchestra stated that he considered Miss Tarlton's interpretation of the concerto, "Nardini" very good.

Miss Tarlton was presented with the West Texas State College Orchestra at its concert recently, and will appear later this season with the Amarillo Senior Philharmonic Orchestra.

Palo Duro News

Martha Miller of Amarillo and Mr. and Mrs. Carl Schroeder visited with Mr. and Mrs. Henry Miller Sunday afternoon.

Miss Barbara Michael spent Sunday afternoon with Peggy Jean Harding.

Helen Schuette of Amarillo, spent Sunday with Mr. and Mrs. Fred Schuette.

Sgt. and Mrs. Floyd Kiser and daughter of Lawton, Okla., spent several days with Mr. and Mrs. E. P. Harding last week.

Mr. and Mrs. Fred Schuette and family, Mrs. Pauline Wendelken and Wilbert, Mr. and Mrs. G H. Leseberg, Jr., and daughter, Mr. and Mrs. Charlie Bauer and children, Mrs. Lena Tucek, Louis, Louise and Dora Tucek, Mrs. Mary E. Lelpole, and Mrs. Cory Bauer spent Sunday at the home of Mrs. Alvina Leseberg in honor of Wilma Schuette, Betty Miller and Wilbert Wendelken.

Gus Newman of the Ancient Marines visited several days last week with Mrs. Pauline Wendelken and Wilbert.

A wheat granary on the E. A. Michael place was struck by lightning Friday night.

Those visiting in the community the past week with relatives and friends were: Mr. and Mrs. H. D. Michael, Ed Michael, Mrs. Clark Johnson, Mrs. Lester Chilcott and Lois, all of Wisner, Nebr., Mrs. John Brockman and Catherine of Indiana, Mr. and Mrs. Wm. H. Michael of Lincoln, Nebr., and Hank Michael of Julesburg, Colo.

Pleasantview

The community will have an Easter egg hunt Sunday. Everyone will meet on the square at 11:30 Sunday morning to go to the canyons.

Harold Wall called in the Roy Wall home Thursday.

Miss Molly Dunaway visited in the Mrs. George Loudder home Sunday.

Jim Bible returned home Saturday after taking his wife to Roswell, N. M., where she will take treatments.

Mr. and Mrs. Eldon McCarter and family visited in the Milton Dooley home Sunday evening.

TRINITY LUTHERAN CHURCH

Amarillo 12th and Taylor

The Trinity Lutheran Church in Amarillo, will hold services Good Friday. The service will start at 8 p. m., Friday, April 23.

The Easter Sunday service will begin at 11 a. m., when several will take the communion for the first time. Those from here are Donna Mae Aardal, and her brother Raymond, Bruce H. Albers, Wilma Schuette and Wilbert Wendelken.

BUY MORE WAR BONDS REGULARLY.

America's Food Emergency

A Statement by Santa Fe

United States facing most critical "crop year" in its history.

During the coming months, the need for more food may be greater than the need for more guns, tanks and planes.

Serving, as it does, "the breadbasket of America," the livestock and meat industry, and the great fruit and vegetable areas of California and the Southwest, Santa Fe pledges its all-out effort in the production and mobilization of food.

What Santa Fe Is Doing

Santa Fe employes are planting Victory Gardens along their railroad's 13,199 miles of right-of-way.

Everything that rolls on the Santa Fe is being kept in fighting trim.

Old cars with good running gear are being rebuilt into sleek new gondolas.

Many Santa Fe refrigerator cars that used to go back "dead-head" now hurry back loaded with other freight.

Cars are few and hours are precious. Every hour a freight car stands idle holds back food or other vital war freight from folks who need it. Every unused cubic foot squanders vital space.

The supply experts of the Army and Navy, the ODT, and the Interstate Commerce Commission Bureau of Service are all focusing on this problem.

How Shippers Are Helping

Shippers are helping and can continue to help (1) by maximum loading; (2) by quicker loading; (3) by quicker unloading.

★ ★ ★

More than 57,000 Santa Fe folks join with the farmers, the livestock producers, the shippers, and the consumers of all America to help meet the greatest food crisis our nation has ever faced.

They're On The Job, Too!

For years the Agricultural Development Department of Santa Fe has cooperated with growers all along the line, for greater production per acre, through better seeds and better cultural methods. For example:

The people of the middle Rio Grande know how the desert has been converted into paying crops.

The folks in Blue Water Valley of western New Mexico know how the production of vegetables has increased from 86 to 1076 carloads in the past three years.

The potato growers of Kern County, California, know how Santa Fe cooperated in stamping out ring rot and blight.

This year, the people in the Texas Panhandle are bringing in their first harvest of waxy kaffir which promises to produce the starch for tapioca and other important products that formerly came from the cassava roots of Java.

In the present national food emergency, these people of Santa Fe's Agricultural Development Department are working harder than ever, doing everything they can to help food growers all along the line.

CARD OF THANKS

We wish to thank our many friends for their many acts of kindness, for their sympathy and flowers at the death of our beloved wife and mother.

E. H. Albers and family.

Vitamins

Vitamins are sometimes spoken of as the "sparks" which enable a person to make use of the food he eats.

YOUR SHOES

Are the only part of your wardrobe which is rationed.

Therefore you must take care of them.

Have them shined and repaired regularly. Worth's will do a good job for you.

WORTH'S SHOE SHOP

ACID—not speed—may "burn up" your engine now!

You don't go "tearing off" the miles, and you hate tearing off ration coupons, too. You'd think your low speed and mileage would almost do away with engine wear. But the products of combustion—always hanging back in the cylinders after stopping—contain acids that nibble at metals!

Engine acids are nothing new, only they couldn't do their worst when interrupted by frequent use of your car and fast driving, instead of staying in your inactive engine for days. Short, slow, infrequent runs don't help much to clean acids out. So now when you're not even sure of getting any needed replacement parts, make sure you muzzle acids as well as you can, by keeping your engine's insides OIL-PLATED.

You know of plating being used to resist such corrosion as rust, for instance. And to resist acid corrosion, have your engine OIL-PLATED—quickly—simply—economically—by changing this Spring to Conoco Nth motor oil—patented. It includes a great advancement in synthetics, invented to maintain OIL-PLATING up and down your engine's insides, during many hours or days when such resistance against acid can help. Your Spring oil change is a "must," but the worst acid effects are not—*not* when you get Conoco Nth motor oil. Continental Oil Co.

CONOCO Nth MOTOR OIL

OIL-PLATES YOUR ENGINE

Social Events of the Week Clubs and Organizations

WIVES OF INSTRUCTORS MET THURSDAY NIGHT

An organization meeting of the Instructors' Wives and Women Instructors of Amarillo Air Field was held Thursday evening at the home of Mrs. Lon J. Godley.

Games played during the evening were under the direction of Mrs. Conn Isaacs.

The next meeting will be held May 13 at 8:30 at the home of Mrs. Isaacs. All those who are qualified are invited to come.

Refreshments were served to the following: Mrs. Iverson, Mrs. Cuzan, Mrs. Riley, Mrs. Samms, Mrs. Olin Huff, Mrs. Kiker, Mrs. Appleton, Mrs. Braudt, Mrs. Godley, Mrs. Isaacs and Miss Plaster.

Mrs. Harvey Cash has been in Shamrock visiting Mr. and Mrs. Rufus Dodgen and children. Allen Dodgen, age 4, recently broke his arm.

Wayne Sanford is visiting in California with relatives before going into active army service.

ROSE WALKER CIRCLE WITH MRS. STEEN

The Rose Walker Circle met in the home of Mrs. I. M. Steen, Tuesday afternoon.

The meeting opened with song and prayer, with Mrs. Minnie Laughery giving the devotional. A social hour was spent reading articles from the missionary magazine, "Commission."

A collection of money and eggs for the Buckner Orphans Home in Dallas was made. Since it is the Circle's time to shower the home with Easter eggs, those having eggs were asked to bring them to the church to be put in cold storage.

Those present were Mrs. J. C. Dowd, Mrs. C. O. Cooper, Mrs. E. B. Anthony, Mrs. J. D. Key, Mrs. Minnie Laughery, Mrs. Charles Stratton, Mrs. J. M. Breitling, Mrs. T. T. Fain, Miss Joy Oldham, Mrs. J. W. McCrerey, Mrs. J. T. Burnett and Mrs. Steen.

Mrs. Elsworth Barnard of Follett visited in the parental Alfred Bellah home over the week end.

MRS. HEFNER HONOREE AT BIRTHDAY PARTY

Mrs. Addie Hefner was surprised on her birthday last Thursday with a party in the home of her daughter, Mrs. C. O. Elkins. Mrs. N. T. Dickerson and Mrs. Jay Prichard, two other daughters, were co-hostesses with Mrs. Elkins.

As Mrs. Hefner arrived, guests sang "Happy Birthday." Mrs. R. T. Bowman and Mrs. R. D. Lowry entertained with readings, after which gifts were presented by little Don Gay Dickerson, three - year - old grandson of the honoree.

Pink and white carnations, sweetpeas and tulips adorned the house, and sweet pea corsages were plate favors. Angel food cake, topped with white candles and decorated with pink rosebuds, was cut and served with ice cream. Before leaving, guests signed the Friendship Book.

Following is the invited list: Mrs. Frank Hicks, Mrs. B. B. Cluck, Mrs. R. T. Bowman, Mrs. L. Lockett, Mrs. M. S. Frieze, Mrs. R. D. Lowrey, Mrs. L. L. Monroe, Mrs. W. M. Amerson, Mrs. J. R. Hicks, Mrs. Ida Brock, Mrs. Nellie Edwards, Mrs. G. B. Combs, Mrs. E. Gidden, Mrs. E. B. Anthony, Mrs. B. F. Fronabarger, Mrs. W. S. Christian, Mrs. H. Harden, Mrs. Emma Dodson, Mrs. B. F. Machen, Mrs. J. D. Key, Mrs. W. J. Hinkle, Mrs. G. Cox, Mrs. W. B. Smith, Mrs. W. L. Johnson, Mrs. C. O. Cooper, Mrs. Jim Coffee, Mrs. J. W. McCrerey, Mrs. Maggie Tinnen, Mrs. Ruth Costley, Mrs. W. J. Prichard.

LOOK HERE For Your EASTER DINNER

An "Easter Egg Hunt" is lots of fun, but hunting for food for your Easter dinner is quite the opposite . . . and there isn't any need for it! Just look here and you'll see the 1943 fashions for feasting . . . everything the well-dressed table will wear this Sunday . . . and our low prices set the style for economy. Enjoy better selection and avoid possible disappointment by filling your Easter Basket with these fine foods.

Post War Problems Discussed Tuesday at Rotary Lunch

Lieut. Olin E. Hinkle was in charge of the Rotary Club program Tuesday, discussing Post War Problems. The Lions Club joined the Rotary Club in this meeting. Lieut. Hinkle leaves Sunday for Miami Beach to begin training in the photographic division of the army.

Mr. Hinkle predicted that we will not be confronted by a nice peaceful world after this war, such as we like to dream of. He recalled the snug attitude following World War I, when we thought everything would be well after getting rid of the Kaiser. We would like to think now that there would be no more wars for another century.

He called upon various world leaders as to their opinion regarding world conditions after this war. A historian stated that judging the future by the past there would be another war; a sociologist stated that the conflict is the characteristic of growth; a philosopher predicted that seeds of dissolution are being sown in our higher civilization; a scientist says that banditry has passed from a localized to a national condition, and asks how are we going to police a world which is armed to the teeth; a geographer points to the fact that improved means of transportation points to strife.

A recent study for world peace after the war has been published. It was written by an English woman, an economist. It is being used as a basis for study by national leaders. The big question is just how far will the United States be willing to go after the war.

A number of men were called upon by Mr. Hinkle to answer questions:

Clarence Thompson was asked what we may expect when the war ends: A celebration for a few days, and then serious thought as to what we shall do in the future. Civilians are going to have to do some hard thinking in order to help our leaders.

Spencer Whippo predicted that food will be a major problem, and that the United States must provide the unfortunate nations with food. He believes that rationing will break down as soon as the war is over, but we shall provide the food in some manner.

L. F. Sheffy hoped that the victors will not attempt to impose a type of government on unfortunate nations. He believes that regional control, instead of world-wide control, would be possible. It will be very difficult to resort a country like Poland, which has been completely dismembered. It will take 4 or 5 years to completely write the peace.

S. H. Condron is of the opinion that some of the smaller nations which were re-established in 1918-19 will not be restored this time. Those small nations which survive must be under the protection of larger nations. The small nations of Europe have been the starting point of past wars.

Lee Johnson believes that business men may expect trouble in the future, especially those dealing in international trade. Receiving pay for goods which have been shipped to other nations will be a source of considerable difficulty.

Visitors were: C. M. McMurtry of Amarillo and J. W. Reid of Dumas.

Mr. and Mrs. Elvert Laughery and children of Borger visited here Sunday.

Miss Oma Robertson visited in Wellington over the week end in the parental V. P. Robertson home.

Help Keep Canyon Clean!

Home Front

MEAT CEILINGS POSTPONED

Maximum prices on beef, veal, lamb, and mutton sold at retail will not become effective until May 17. OPA suspended ceilings scheduled to go into effect April 15 in order to be sure that the prices were in line with other costs of living.

RAISE CORN PRICES

A ceiling price on corn five cents per bushel higher than present maximums, established April 14, will be effective until September 30, 1943. According to OPA, which acted upon instructions from Stabilization Director Byrnes and Food Administrator Davis, there will be no further increases in corn prices during the 1943 market season. The price raise is designed to relieve the present acute market shortage of corn for livestock feeding and industrial processing.

NEW RULES ON SELECTIVE SERVICE

Chief effect of the recent changes in Selective Service classifications is the elimination of dependency deferment except for:

(1) Those who maintain bona fide homes with children,

(2) Those whose induction would cause extreme hardship to a wife, child or parent, and

(3) Those with dependents who are necessary to and regularly engaged in agriculture.

Men formerly classified in III-A and III-B who had been deferred because of dependents will be reconsidered. Class II-B is eliminated entirely. A child born after September 14, 1942, is not recognized as a "dependent" in classifying a registrant in Class III-A. The new classification, III-D, will contain all men whose induction, in the opinion of their local boards, would create extreme hardship or privation for a dependent wife, child, or parent.

WAR COSTS GO HIGHER

A new high of more than 7 billion dollars was reached in war expenditures during March, when the average amount spent each day was $263,400,000. To meet these mounting costs of war, Secretary of the Treasury Morgenthau recently disclosed that the 13 billion dollar second war loan is part of 70 billion dollars that must be raised during 1943. "This is a people's war, so all the people ought to have a part in financing it," said the Secretary as he warned that "ten per cent is not enough.

FARMERS WHO SELL TO RETAILERS

A farmer who sells butter, lard, or any other rationed food to a retailer must collect ration points for the sale, just as he has done in selling to the consumers since March 29. All farm sales must be made at current point values and stamps collected must be turned in to local ration boards with a report made on OPA Form R-169. This form will be available to all local boards during the last week in April. The first report is due during the first fifteen days of May and will cover sales made betdeen March 29 and the end of April.

WOMEN'S LAND ARMY

A women's land army of about 60,000 city and town women will be recruited, as a part of the U. S. Crop Corps, to help meet the farm labor shortage. Ten thousand of these women are expected to enroll for year-round farm work and about 50,000 for seasonal work for one month or more. Three hundred thousand women will be placed by country agricultural agents for short-time emergency jobs on farms —women who can spare week ends, a few days, or a few weeks, women who wish to contribute their services should await the local call.

SUGAR FOR CANNING

Sugar for home-canning of 1943 fruit crops will be available to housewives on approximately the same basis as last season. No deduction of blue point stamps will be made from War Ration Book Two for canning sugar. Details of the program will be issued within the next few days.

FARM VALUES UP

Farm real estate values on March 1, 1943, showed an increase of nine per cent over last year. This is the most substantial gain that has occurred since 1920. Land value increases during the past year were widespread, with some advance reported for each of the 48 states.

JOB FOR RADIO "HAMS"

Radio "hams," formerly banned from the air because of the war, may now serve their country in the War Emergency Radio Service. For further information, write to the Editorial Section, Office of Civilian Defense, Washington, D. C.

SAFE CANNING METHODS

The steam pressure canner is the only method recommended by the U. S. Department of Agriculture for preserving certain types of vegetables. Such vegetables as beans, peas, corn, spinach, and asparagus, as well as meats, should be cooked in a steam pressure canner to kill organisms which cause food to spoil. Fruits and tomatoes, rhubarb, and pickled beets may be safely canned by the boiling water-bath method. To be safe, these products should be boiled for at least ten minutes before they are eaten or tasted, even though there is no sign of spoilage when the jar is opened.

SHOE LEATHER RELEASED

Certain types of leather, which had been frozen, have been released by WPB for the manufacture of shoes. As a result of the action, more than one million pairs of women's and girls' shoes are expected to be made from genuine and imitation reptile leather. Natural colored retan leather was also released, and manufacture of leather bows for shoes was prohibited.

HIGHER SUPPORT PRICES

Support prices for dry beans, dry peas, peanuts, soybeans and flaxseed have been raised. Payments have also been announced for Irish potatoes and truck crops for production between 90 per cent and 110 per cent of farm goals.

REVISED TIRE REGULATIONS

Tire rationing regulations have been tightened to prevent bootlegging and violations of tire inspection requirements. Changes ordered by OPA are: (1) Tire inspection record must be kept in the vehicle while it is in operation. (2) Tire inspectors will report serial irregularities to the local rationing board, (3) If an applicant does not have a tire inspection record showing all inspection requirements completed, the local board may grant his application if an inspection was made 60 days before the application was filed, (4) dealers need not hold tires turned in for 30 days as now required if, before that time elapses, the tires are examined by an OPA representative and their disposal authorized.

"ON THE FARM" WIRING

Farmers can now install farmstead wiring for operation of equipment at the same time utility service connections are being made. A farmer eligible for electric service under order U-1-C, and who has been certified by his USDA county war board, can purchase up to 75 pounds of wire, plus necessary accessories, from any supplier, and is granted a preference rating of AA-3 to obtain it.

POINT VALUES LOWERED

Because some perishable meat products were moving very slowly OPA reduced by one or two points the ration values of sausage (including weiners, bologna, pork sausage), scrapple, chitterlings, and pork neck and backbones. Dry and semi-dry sausage—such as hard salami, hard cervelat, pepperoni, soft salami, thuringer, and mortadella—were not affected by the action.

WOOLEN FABRIC PRODUCTION

Production of woolen and worsted fabrics in 1942 reached a new all-time high of 525,000,000 linear yards. This is almost 50 per cent greater than in 1939. WPB has doubled wool quotas for essential civilian fabrics which is expected to make an additional 75,000,000 pounds of wool available for civilian needs. This is further assurance that there will be adequate supplies of clothing for civilians during the fall and winter of this year.

ONION, POTATO MAXIMUMS RAISED

Maximum prices on dry onions and white potatoes of the late 1942 crop for sales during May and June, 1943, will be 10 cents higher than in April, the OPA has announced. The change in price is designed to spread available supplies evenly over the next three months.

FRESH VEGETABE CEILINGS

Price control on seven fresh vegetables will be established on a national basis April 22, supplanting present regional control, the OPA has announced. Retail ceilings for cabbage, carrots, lettuce, peas, snap beans, spinach and tomatoes will be set through use of uniform mark-ups over the retailers' net cost. For each vegetable except cabbage the retailer will determine his ceilings by multiplying his net cost by 1.39.

Spoilage on cabbage is greater and its mark-up will vary from 1.50 to 1.65 according to the class of retailer. Store operators will determine their ceilings each Thursday by applying given mark-ups to the net cost of the vegetable based on the largest single purchase of the preceding week.

EXEMPT SMALL SALES BY FARMERS

A farmer who sells not more than $75 worth of foods per month to country shippers or to consumers is exempt from price control recently established for seven fresh vegetables. If the farmer is a country shipper, he is subject to the price regulations.

CAFE CEILINGS IMMINENT

District OPA offices have been granted the authority to fix ceiling prices for food and beverages served by restaurants, cafeterias, hotels and other eating and drinking establishments. The base period for such establishments is April 4-10 and each firm must file its menu or price list with local War Price and Rationing Boards by May 1.

APPLICATIONS BEING TAKEN

Applications are now being taken from restaurants and cafe operators by local war price and rationing boards for their May and June food allotment certificates. Applications may be made by letter since no forms are yet available.

COTTNO LOANS SOAR

Through April 10, the Commodity Credit Corporation had made 1,564,972 loans on 2,979,003 bales of the 1942 cotton crop, it was announced by the Department of Agriculture.

Dr. E. J. Cundiff, returned this afternoon, after attending the Texas State Dental Society meeting in Fort Worth.

Big Track and Field Meet To Be Held Saturday

One of the largest Region I Track and Field Meets ever held at West Texas State College is being planned for Saturday, April 24. Having dispensed with district meets this year, all teams of this region will come directly to Canyon. This action will throw the field wide open for contestants, and as large, if not a larger group of athletes, is expected this year despite the gasoline and rubber problem.

Coach Nicklaus has been appointed director of athletics for this year's meet.

Each school that is represented in the meet will be allowed to enter three men in each event. Coach Nicklaus stated, "No contestant shall be allowed to compete in more than three track events, including the relays, and in not over five events altogether. And no contestant shall be allowed to enter more than one of the following events: 440-yard dash, 880-yard dash and the 1-mile run."

For the team winning the first place, a 12-inch trophy will be awarded. A 6-inch trophy will be awarded the team winning the 1-mile relay and the 440-yards relays.

Medals will be awarded the winners of both boys and girls tennis, singles and doubles.

In discussing the plans of the meet, Coach Nicklaus said that all contestants would dress in the gymnasium. "The athletes must leave their valuables with either their manager or coach. Guards will be placed to watch the clothes," Nicklaus stated.

"No one but contestants and officials will be allowed on the track and football field," he added.

The preliminaries start at 10:15 o'clock Saturday morning, April 24. The order of events follows:

FOR SALE

FOR SALE: Sows, pigs and a four-row lister. See Joe Frank. p1

THIS VISION of 30 years might come to be a reality: A family on every half-section of land; a home garden and orchard; poultry, hogs, and Milking Shorthorn cows. This farmer's cow meets every need for beef and milk.

Our herd won 9 firsts at the Plainview Dairy Show last week and sold the highest price cow at public auction.

Enlargement Campaign at Baptist Church

The First Baptist Church will have a Training Union enlargement campaign April 25 to 30 under general direction of Mrs. A. Adamcik, (pronounced adam-shack), worker with the Texas Baptist Training Union Department of Dallas. She will teach a course for young people. Rev. J. Lowell Ponder of Plainview will teach the course for adults. Mrs. Claude W. White will teach the course for Intermediates 13 to 16 years of age. Mrs. R. C. Hillier will teach the course for Juniors 9 to 12 years of age. A teacher will also be provided for boys and girls still younger, thus enabling the whole during the week.

The Training Union Department of the local church, which meets an hour before the Sunday evening preaching service, has been running well over a hundred in average attendance, and has gone beyond two hundred a few times. The purpose of this week of enlargement is to offer study courses of value to all age groups and work out plans for increasing the efficiency of the organizations. "Work-shop" conferences will be directed by Mrs. Adamcik during the week and necessary new officers will be enlisted for the enlarged work. Visitors are welcome to all these classes.

Cattle Grubs Controlled

These pests are the young stage of the heel fly. They usually appear on the backs of cattle about this time of the year and cause considerable irritation by cutting holes in the hide. If grubs are present the treatment of cattle with a powder made by mixing one part 5 per cent rotenone content derris or cube powder and two parts of wittable sulphur is recommended. Apply to the backs of the animals from a shaker can and rub in lightly with the hand.

Fuel Oil Shortage

The present fuel oil shortage will last the duration. Now the shortage which requires rationing in 30 states is due to transportation difficulties, but an actual shortage of fuel itself is foreseen by government petroleum experts. The campaign to induce homeowners to convert to coal is nation-wide in proportion. Now the campaign is voluntary, but may later be compulsory. Coal is the most plentiful and economical fuel.

Less Cancer Then

Primitive races of men had cancer, but to a less extent than civilized man, presumably because fewer primitive men lived to advanced age.

Farm Topics

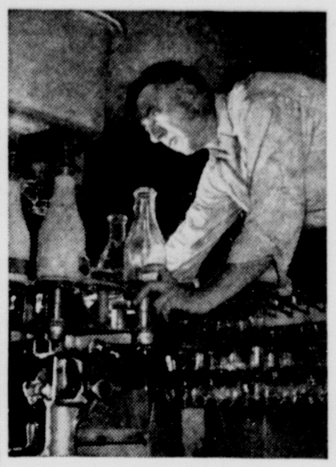
Water, and How It Fits Into Our Lives

Man Should Use it Wisely at All Times

Water is as indispensable to man as air, and if all the moisture were removed from the earth and from the atmosphere, all life would cease. Water enters into every phase of human life and man uses it for many and varied purposes. However, people are hardly conscious of water, especially in the East, until it fails—until they turn on the faucet and find it dry.

When the Indians fished in the Ohio river it was a clear and leisurely stream flowing between towering tree-tops and dense brushy banks. White men then took over the land and cut the trees to make way for civilization.

During the passing years, the valley lost its sponginess and became a great water-shedding net of gullies and ditches. Less than 200 years after the white men came, the peaceful Ohio turned into a savage snake as its brown water spread over thousands of square miles on the way to the gulf in the spring of 1936. This was one of the greatest of many devastating Ohio floods. Similar destruction to homes and soil took place again in 1937 as water from rains and melting snow filled fields, gullies, ditches and streams leading into the Ohio.



Filling bottles with milk from a mechanical bottle filler.

There are 200 million gullies on hillside fields and sloping ranges in the United States! During periods of prolonged or heavy rainfall everyone of these man-made chasms becomes an active waterway.

Accumulation of soil materials prevents streams from carrying off water and fills reservoirs with eroded soil, unless they are guarded. Fish cannot live in water that is filled with silt, for mud clogs their gills and mud on the stream bed buries sources of food supply. Muddied water also hampers man's recreational use of streams by making it unhealthful to swim in the dirty water.

Nature Soon Bounces Man's Rubber Checks

No matter how selfish and spendthrift men may be in managing soil wealth, they will be unable to completely bankrupt the universe because those who draw upon this hoard of wealth will find their checks returned for insufficient funds while the bank of nature still is solvent.

Agronomists at Ohio State university explain this seeming contradiction by saying that nature does not have faith in man's ability to handle unlimited wealth. The soil contains hundreds of times the amounts of nitrogen, phosphorus, and potash removed by any series of crops but nature slams down the paying teller's window when destructive cropping is overdone.

Plant foods are not placed loosely in the soil so hungry plants can remove them completely in a few years. There is a certain amount of fertility in new soil that can be removed quickly by farm crops. After that bonus is removed, the remainder of the wealth is controlled in a trust fund and can be obtained only piecemeal and by following the laws of nature.

Pioneers found the soil bountiful in its returns for labor expended. Each succeeding generation has discovered that these returns become harder to obtain unless the bounty of the soil is rewarded by a partial return of the elements it releases. Some garden spots have been tilled for more than 100 years and still yield as well as they did originally.

Rural Briefs

Farmers who fumigate shelled corn stored in metal bins can protect the grain from reinfestation by spraying the top surface with a light application of oil.

• • •

Barring unpredictable developments, the total food supply produced on American farms this year will be the largest on record, according to the United States department of agriculture.

Help Keep Canyon Clean!

Garden Leaves

MRS. J. A. HILL
President Canyon Garden Club

It is verily lilac time. Everywhere you look you see the beautiful flowers and the soft green leaves with their purple tips are almost as pretty as the blossoms. Then how refreshing is the illusive odor. Over on Third Avenue there is quite a lot of white lilacs.

Jack frost did not get all the spirea either. It is another shrub whose foliage is almost as pretty as its flowers.

The blue grass is dying in spots all over town. It has always been thought that the lowly earth-worm was the gardner's friend, but some one says that they are killing the grass. Others say that the Japanest beetle is doing the dirty work. Does some one else have a different theory? Whatever the cause it is marring the beauty of the lawns. Who has a remedy?

Neat little vegetable gardens are springing up all over everywhere. Our town will be prettier this year than ever before. Thrift just naturally makes beauty. The showers we have been having are fine but the weather will have to get warmer before things will do much growing. In planting garden rows, they should run east and west so as to get full benefit of the sun—so say some authorities.

The old idea of planting at the "right time of the moon" seems to have no scientific foundation but if you have had the best success by following that time honored custom, keep on. It will do no harm and maybe some scientist will discover a reason for it. Who knows?

It is a pretty good idea to plant seedlings in paper cups; tear out the bottom where the plants are large enough and bury the cups in the ground. The cup acts as a barrier to cut worms.

Scientific gardeners recommend a dozen or so kinds of sprays and powders, etc. to control insects and worms. These need a money outlay that many of us cannot afford, so careful cultivating and watering are pretty good precautions. Hand picking comes in handy, too. Amateur gardeners have to rely to a certain extent upon the vagaries of Lady Luck.

Some of the best gardens are grown upon sod land. They say that J. L. Duflot's best tomatoes of last year were planted in a hole made by a screw-driver in the native grass.

Growing plants are an irrefutable proof of the resurrection and immortality to those who have faith.

Substitute for Steamed Bonemeal

Thoroughly steamed bonemeal is not always available for use in making mineral mixtures for hogs, says Ellis V. Vestal, animal husbandry extension specialist of North Carolina State college. When it is not available, he says, a mixture of 10 pounds of ground limestone and two pounds of salt may be used. If it is available, use 10 pounds of ground limestone, 10 pounds of steamed bonemeal, and five pounds of salt. Minerals should be placed where the hogs can have free access to it, but should be kept dry.

'Tubeless Tires' in Montreal

"Tubeless tires" have been tried in a successful 10-day test in Montreal, Quebec. The tire is made airtight with liquid rubber or cement.

Chemist Warns of Wear on Cars by Low Speed

Danger of acid in the engine of America's motor cars due to slow driving necessitated by wartime retioning, was pointed out today by Dr. B. H. Lincoln, chief chemist of Continental Oil company.

He warned that motorists must be doubly cautious under present conditions if they are to preserve the country's transportation system for the duration of the war.

"There won't be any new cars until long after the war is over," said Dr. Lincoln, "because manufacturers will have to divert from wartime to peacetime production before they can turn out new automobiles. Consequently it behooves all motorists to take the best possible care of the cars they now have.

"Due to war conditions of slower driving and less frequent driving, an old danger threatens to become more pressing and do immeasurable damage. It has always been known that cold engines, not run long enough nor hard enough to get really warmed up to their jobs, wear out fast. Engineers have estimated that the first few minutes of operation, the warm-up period, are responsible for 80 per cent of all engine wear.

"Actually this has not been due to 'wear' from friction, as the word is usually understood. Corrosion of metal parts by the action of acids is to blame.

"The ordinary driver does not know much about the danger of engine acid and corrosion, its causes and effects, and the best method of prevention. Most of all he does not know how and why this particular operating problem has become suddenly more dangerous as he patriotically reduces his speed and cuts down his driving mileage."

Dr. Lincoln went on to say that this acid condition and its dangers are responsible for Continental Oil company's current advertising theme—an effort to prolong the life of America's automobiles by a timely warning to motorists.

CHS Participants Are To Enter Interscholastic League Contests

Eighteen Pupils Invade Declamation, Ready Writing, Typing, and Athletic Fields in League Competition

To represent the abilities of Canyon High School's student body, 18 students will enter the Regional Interscholastic League Conference Saturday at West Texas State College. The meet is under the auspices of the college, with Boone McClure as director general.

Typing contestants from this school will be Anita Davis, Martha Jean Dowd, and Shirley Harrell. Either Helen Jo Cox or Billy Jane Bonifield will declaim, and either Mollie Nann Ziegler or Georgia Faye Holt will try her hand in the ready-writers division.

Entrants in the athletic contests will be the following: Billy Ray Boling, Merle Dickerson, Lindsey Taylor, Charles Taylor, Bob Copeland, Harley Hicks, Max Bosley, J. Ray Hunter, Leslie Gordon, Bobbie Dowd, J. Spencer Winn, Marvin Davenport, and Don Standley.

Activities in which these boys will participate are the 100-yard dash, 440-yard relay, one-mile relay, pole vault, running high jump, 120-yard high hurdles, 880-yard dash, one-mile run, 12-pound shot put, discus throw, 220-yard dash, running broad jump, 440-yard run, and 200-yard low hurdles.

CRIME DOES NOT PAY

I know my test answers are correct because after I saw the questions lying on the teacher's desk, I studied!

Did you get question five, Bill? Hey, Joan, write answer six on this paper and hand it to me.

How many students cheat on tests and exams? There are a few in Canyon High School who do so, but they never stopped to think: What do I gain from cheating? Do I develop this habit to make good grades or to make people think I'm smart?

If these are the reasons, every student should realize that he is doing himself more harm than good.

During the last week when six weeks' exams were in progress, few students were caught eyeing others' work, but of those who did, we would like to ask: "How do you feel? Are you ashamed? Do you care at all? Will you regret it in the future? Can't you look ahead and see what is in store for you? Can't you come to the realization that today you learn, and tomorrow you apply these principles?"

Number, Please!

Do you have trouble remembering numbers? If so, you should call on Corp. John Crapp of Fairbanks, Pa., who is stationed at Keesler Field, Miss. Corporal Crapp makes a hobby of remembering army serial numbers and at one time could rattle off those of 150 of his friends with scarcely a pause for breath—and most army serial numbers run into eight digits.

Blushing Couple Says Matrimonial Vows

Amid blushes, sighs, smiles, and tears, Pete Garrison proudly escorted his "daughter," Fannie Alice Pierce, up the aisle and into the engulfing sea of matrimony with Dick Barrett. Such were the proceedings of the assembly program last Friday as the seventh graders presented their interpretation of "A Wedding of the Hills."

Wailing and wringing tears from handkerchiefs was James Inman, the rejected lover, who required much physical and moral support to reach the stage.

Class Names Assistants

Ushering the families of both the bride and groom to their respective places were Clifford Burtz, Austell Burrus, and Tommie Hunter.

Bridesmaids Joan Ford, Carrie Dorothy Sanders, and Muriel Fay Cope were preceded by Billie Gill, maid of honor, who met Jack McBroom, best man, near the altar.

Flower girls Joan Morton and Geneva McDougal paved the bride's path with flowers, while Valeta Haines and Marvin Fite carried her train.

The "Reverend" Max Bellah performed the ceremony after the breathless arrival of the groom.

Enormous Ring is Placed

Jones Hales carried the enormous ring, which was placed on the bride's thumb. The curtain was pulled after the exchange of vows.

At the beginning of the assembly, the Rev. W. J. Phelps, pastor of the Assembly of God Church, introduced the visiting evangelist, M. M. Dudley of Oxford, California, who discussed the reading of the Bible.

Students Attend Spanish Social

Under the direction of President Lila Mae Lill, Spanish I and II students last Friday decided to have a social on that night. After a chicken dinner, especially prepared at the Palace Cafe, the "alumnos espanoles" attended the motion picture, "Bambi," at the Olympic Theater.

As a part of the program prepared by Helen Jo Cox, the students had a contest to see who could translate the most words correctly. No winners were selected, however.

In the auditorium, Dorothy Reese played "La Paloma," "La Cucuracha," "La Espanol," and several other selections on her piano-accordian.

To close the program, Billy Jane Bonifield led the group in singing.

Titles May Startle Future Generation

"Just how will popular song titles sound years from now?" asked an inquiring reporter as he flipped the pages of a yesterday's song album.

One could easily get the wrong idea from titles such as "Hinky Dinky Parley Voo," "The Low-Backed Car," "Down in a Coal Mine," and "She May Have Seen Better Days."

And what about these: "May I Sleep in Your Barn Tonight, Mister?" "Bohunkus," "The Future Mrs. 'Awkins," "Meerschaum Pipe," "My Last Cigar," and "My Moustache?"

Misleadingly , "Mush, Mush" sounds very modern, while "Integer Vitae" and "La Donne e Moblie" take the more ancient turn.

Feature the next generation merely glancing at "My Devotion," "Black Magic," or "Chattanooga Choo-Choo"!

Kids' Rest

Experiments have shown that the afternoon rest of children is much quieter than their night rest.

Third Grade Exhibits Birds

Holding mounted birds which have provided club programs all year are 12 in Miss Sarah Thompson's third grade. On the first row are: Ivana Jean Prichard, Bobby Vandergriff, Dorothy McReynolds, Teddy Howell, Charles Donnell, and Alice Jean Gill. Second row bird clubbers are: Jimile Jennings, Lynn Blewett, Nora Ann Carr, Fritzie Hogge, James Cundiff, and Jane Kathryn Schramm.

Parent-Teachers Elect Next School Year's Officers at Last Meeting

Electing the officers for the school year 1943-44 was the main issue of of the Parent-Teacher Association meeting Monday. As proposed by Mrs. D. F. Sanders, chairman of the nominations committee, the new officers elected are: President Mrs. Harris M. Cook; vice-president, Mrs. R. A. Neblett; secretary, Mrs. A. K. Goodman; treasurer, Mrs. Worth A. Jennings, Jr.

Mrs. Cook Introduces Groups

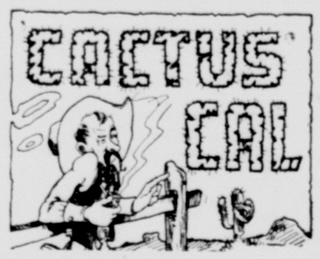
Publicity chairman, Mrs. Ray McReynolds; hospitality chairman, Mrs. Ross Craig; finance chairman, Mrs. Burney Slack; membership chairman, Mrs. D. M. Foster; publications chairman, Mrs. S. S. Howell; and study course chairman, Mrs. R. C. Hillier.

Opening the program, Mrs. Cook introduced the sixth grade girls who sang "Santa Lucia," the fifth grade girls' quartet, singing "Bless Our Soldier Boys," and Betty Jo Ponder singing "The Lilac Tree." Following this, Miss Sarah Thompson's third grade presented a playlet, "It's the Little Things That Count."

Miss Wilroy Talks

Highlighting the program was a talk, "Conservation on the Home Front," given by Miss Frances Wilroy, Randall County Home Demonstration Agent. Mrs. Slack and Mrs. P. L. Walters gave brief reports on the Parent-Teacher District meeting, held April 9 in Amarillo.

A social prepared by some of the members followed this meeting.



I would never write this if I thought anyone would read it or anything like that. Oh my no! I would be afraid of running too stiff competition for the "Berlin Diary!"

To go ad libing on through a block on the calendar, I simply shined in English this morning—so much so, the teacher decided to polish me off! Anyway I turned up with a 55 just 'cause I thought the salutation of a letter was the "Yours truly." Oh me, the trouble is, my teachers don't understand me. How were they to know that I drank so much hemo the night before, that the bed slept on me instead of me sleeping on the bed! I guess that was the case,—when the alarm went off at the usual time, two minutes before 9 o'clock, I bumped my head on the springs instead of the bed lamp.

Typing nearly drove me nuts. I put my carbon on the window sill and spent the rest of the period on the play ground (looking for the carbon)—with me ten lessons behind, too. My speed is improving though. I now come out even.

History class was much clearer today. I found out a "rebate" meant something in the chapter on commerce. How was I to know that we had finished the chapter on the fishing industry!

Noon: Disgust, disgust, just as the bruise on my left knee was leaving, I got another one today. I still think I was hungrier than any of those guys I went through the door with.

Comment by friend of author: Due to a severe case of GORGEitous, this case history will be continued only when the program of rationing is additionally cut.

Guess Who

In volley ball she is sure fire
This senior girl is one live wire.
Her brown hair isn't her only asset
I know she can sew; and cook too,
I bet.
The family car gives us her last name.
If you can't guess her,
It's really a shame.

Principal Relates Bird Happenings

Since Mrs. L. M. Cousins' fourth grade Bird Club was studying the important uses of birds, Miss Elva Fronabarger read stories and poems on "What Birds Mean to Us" Friday in their regular meeting.

After her discussion, the members exchanged stories and incidental happenings they had heard or experienced.

Rabbit Brush for Rubber?

Studies of the rabbit brush as a source of rubber are being made by federal scientists. A desert dweller like guayule, it is distributed over ten western states. It grows well at elevations around 7,000 feet, frequently on inaccessible rocky hillsides, and rarely occurs in solid stands. Authentic analysis of the rubber content, together with current estimates of the existing stands of rabbit brush, indicate that not more than 30,000 tons of rubber could result from the slaughter of this shrub, the domestication of which is not favored by plant scientists.

Sixth Grade Gives Birthday Party

With refreshments furnished by Mrs. W. M. Dickerson, Mrs. John Davis' sixth grade pupils gave their sponsor a birthday party Monday afternoon.

In addition to individual gifts from both students and teachers, a corsage of war stamps was presented to Mrs. Davis by the entire grade.

Since their birthdays were during the week, Sue and Faye Dickerson and Glenn Prater were also honored.

Cookies in the shapes of rabbits and chickens, individual marshmallows with candles, and punch were served.

Department Gives Victory Program

Next Thursday night the music department of Canyon High School, directed by Miss Mary Roberts, will present its last Victory Concert of the year.

As usual, admission to the concert will be to purchase at least one war bond or stamp.

Teacher Explains Home Projects

Summer Plans Now Allow More Freedom of Choice

To conserve, to restore, and to produce will be aims of the homemaking girls who participate in summer projects this year, according to Miss Rhita Sullivan. For this work, Canyon High School will offer one-half credit toward graduation.

Because home situations and problems probably will be unnatural and unusual, the program will be more flexible than other year's programs, allowing each girl to choose a project or activity that fits her situation.

Projects Classified

Besides the general types of work, projects are divided into three classifications: employment projects, which include taking care of children, doing housework or cooking, and working in a cafeteria; group and community activities, which include participation in work at a canning center and Red Cross work; and wartime individual projects, which include conservation of materials and health, and production and preservation of food.

Summer activities make it possible for girls to have planned supervised recreation in the summer, to apply to home situations the things they have learned in school, and to have the satisfaction and pleasure which result from spending a part of one's summer leisure wisely.

Requirements are Named

Following are the requirements for taking part in these projects:

1. The girl must have one year of homemaking.
2. She should choose a project or series of projects which will necessitate spending from 100 to 150 hours including time spent in planning and carrying out the project.
3. The work must be planned under the supervision of a teacher, and definite plans must be made and checked before work is started.

Girls Must See Teacher

4. The girls must have contact with the eacher once a week either by visit or letter.
5. Project should be finished ready to be checked and evaluated by September.
6. Record of work and completed written report on the project should be ready to turn in at the time the project is checked in September.

Journalists Attain Individual Honors

After consideration and debate, Mrs. G. B. Tabor and Mrs. Olin E. Hinkle, the two semester press club sponsors, have submitted the following students as eligible for journalism letters this year: Mollie Nann Ziegler, Manus Read Foster, Ellen Sanders, Ellen Root, Evelyn Black, and Ruth Price—first year reporters—and Anita Davis, Johnny Harter, Polly Winstead, Shirley Harrell, and Martha Jean Dowd—second year students.

"Each of these has had printed at least 150 inches of copy and 30 headlines and has an exceptional record for conduct, attitude, and willingness to repeat the writing of stories," said the teachers.

As has been the custom in the past, each letter will be a white "C" mounted on a purple background and will be crossed by a large quill to signify its purpose. For second year awards, two small purple stripes will bisect the letter. Likewise the words "Editor, Ass't Editor, or Business Manager" will appear on letters of those achieving the titles.

DR. INGHAM
DENTIST
1204 5th Avenue.
Office Hours, 9:00 to 3:30

Speaker Selected

Senator Grady Hazelwood

To be the commencement speaker for the Canyon High School graduation exercises on May 20, the seniors have selected Senator Grady Hazelwood of Amarillo and Austin. A former resident of Canyon and an ex-student of West Texas State College, Senator Hazlewood is well-known among citizens here. Although he, a high school graduate of Silverton, never attended Canyon High, two of his brothers were graduated from this school.

Freshmen Down Senior Players

Superintendent Will Award Balls for All-Star Team

Culminating two weeks of combating, the freshmen girls overpowered the seniors in the intramural volley ball finals last Friday.

After winning the second game by time, the freshmen climaxed the series by scoring in the last game 15 points to their opponents 11.

To an all-star team composed of Billye Gill, seventh grade; Betty Ann Miller, eighth grade; Evelyn Garrison, freshman; Fawn Rogers, sophomore; Gwendolyn Phillips, junior; and Carolyn Black, senior, small silver volley balls will be presented.

As soon as the awards come, Supt. J. B. Speer will give a gold trophy to the freshmen and individual volley balls to the all-star squad.

Fighting for the ninth grade cause were captain Evelyn Garrison, Doris Meadows, Dorothy Graves, Cheri Kilchriste, Velta Speer, Barbara Bogert, Louise Morton, Johnny Frances Wallen, and Wilma Schuette.

Miss Amaryllis Robinson, physical education teacher, refereed all games.

Sixth Grade Falls Beneath Seventh

Competing in the continued grade school intramural combats, the sixth and seventh grade boys battled last week on Monday, Wednesday, and Friday in softball.

On all three days the seventh grade overpowered the sixth, the scores being 5-1, 14-12, and 12-4 respectively.

Starting on Monday the two grades will run in track with Milton Sanders and Mrs. John Davis coaching.

Sophomores Are Class Leaders

Certificate of Award Is Prize Given to School

Canyon High School has successfully completed its phrase in a nation-wide jeep campaign! Exceeding the quota of $900, a total of $1062.55 of stamps and bonds was sold during the period March 1-April 19.

Similar drives throughout the nation have been contributing to the interstate goal of 10,000 jeeps and the state goal of 354 jeeps before the deadline, April 19.

Sophomores Exceed Totals

Sophomores have exceeded the other classes with a total of $245.30 in weekly sales which have composed the buying corps of the school. Seniors totaled $235.65; juniors, $233.35; freshmen, $173.10; seventh, $94.75; eighth, $80.40.

Certifying the successful completion of our campaign, Supt. J. B. Speer will send a report containing details of the drive to Frank Scofield, War Bond administrator for Texas. Our school will receive an award similar to the Distinguished Service Certificate, but it will feature a picture of a jeep and the following words: "For service to the War Savings Program, through the successful completion of a Schools at War Jeep Campaign, this citation is awarded to . . ."

Rules Are Designated

Rules for conducting the campaign were as follows: (1) $900 is considered cost of a jeep. (2) Past jeep campaigns do not count for these certificates except that (3) jeep campaigns already under way and scheduled to terminate after March 1, if they otherwise qualify under the rules, may be awarded this certificate. (4) Certificates will be awarded only to those schools which have successfully conducted a campaign to finance the construction of a jeep. (5) Schools which qualify should send details of the campaign to the State War Savings office.

"To have successfully completed this drive is an accomplishment well worth commending," stated Supt. Speer.

Evergreens Bring Campus Beauty

As part of a program introduced by the school board for the beautification of Canyon High School, I M. Steen and I. H. Hollabaugh, custodians, have planted evergreen trees in front of both high school and grade school buildings.

By the high school steps and by the doors of the grade school building are four tall Italian cypress trees, which will in time add the appearance of height to the buildings.

Spaced evenly beyond these tall evergreens are six more stolid spiny Greek cypress trees near the high school and four near the grade school.

"We wish to thank Levi Cole for the landscaping suggestions he furnished, and the school board for bringing about this beautification program," said Supt. J. B. Speer.

Since Miss Mary Roberts, chorus and band director, has been away this week, C. E. Strain, instructor in West Texas State College, has assumed temporary direction of these organizations.

The Legislative Grapevine

Senator 31st District

After considerable debate, many jibes at the Liquor Control Board, and a few amendments, the rewrite of the liquor laws of Texas by Senator George Moffett was passed through the Senate by the almost unanimous vote of 23 to 1. Heretofore either minors or aliens could procure liquor licenses. Also, the Liquor Board could close a bar or honkey tonk and a new license in another name could be procured immediately, with the result that operation of such places continued without interruption. This was corrected so that hereafter when any such place is closed it will remain closed regardless of ownership for a period of six months, thus incurring considerable financial loss to the owner of the property. Election machinery was revised in some minor respects but the one year period between elections remains the law. There had been some division among prohibition forces in this regard. The bill as passed carried the official endorsement of the Texas United Dry Group.

Passed by a very decisive vote last week was another rather rigid control act commonly referred to in newspapers as the "Curfew Law." The votes in the Senate and the House on these two bills bears out the earlier prediction made in this column that the dry forces would have their way at this session.

This week the Senate refused to concur in House amendments to the "Fire Murchison" bill by the writer and asked for a free conference committee. The House amended the bill taking the appointing power away from the Board of Public Welfare and placed it with the Governor. It was rumored that the Governor would have none of this, and newspapers quoted Lieutenant Governor John Lee Smith, aspirant to the governor's office at some future date, as also being opposed to it. The old age assistance problem is much discussed but no one wants anything to do with it. Executive Director Murchison is Texas' largest single spender, having $42,000,000.00 per year which he expends for old age assistance and administrative purposes. Everyone remembers that it was he who raised his salary $1,00000 per year and the salaries of his department $60,00.00 per year. Incidentally, the old age assistance division occupies the most elaborate and most expensive air conditioned offices in Austin. The grapevine is that the Board of Public Welfare is not going to give the Senate a chance to fire Murchison by refusing to confirm him, but will name another man for the place before the free conference committee can act. Rumor has it that three men have already been solicited for the position and all three have refused it, all of which further indicates how wary everyone seems to be about this department.

Announcement!

I'm opening an auto repair shop in the old Canyon Motor building on the north East corner of the square. See me for your auto repair.

New Professor of Physics Is Away on Military Trip

Dr. Garrett Kemp, a former instructor at Purdue, has been added to the faculty and will teach in the Physics Department. Dr. Kemp is a prominent lecturer and writer in the field of science. He was listed in the sixth edition of the American men of Science.

Dr. Kemp has taught at the University of Arkansas, University of Kentucky, Oklahoma A. & M., and Baker University in Kansas. He received three degrees from the University of Illinois, obtaining his Doctor of Philosophy degree in 1912.

He is a Texas State Licensed Engineer in geological, petroleum and mechanical engineering, and has recently been working in the geophysics field.

He has been given a short leave of absence for a trip to New York on a military mission, and will probably return to Canyon next Monday.

Fairview Breezes

The Rev. Lloyd Garrison was here Sunday to fill his regular appointment.

All attendance enjoyed singing here Sunday afternoon.

Vesta Amerson, Evlyn Schaeffer and Rev. Lloyd Garrison, were dinner guests in the S. F. Sharpes home Sunday.

Misses Marie and Loveta Evans visited Sunday with Miss Naoma Bryant.

Myrtle Evans is staying with her sister, Mrs. Artie Pearson, while Mr. Pearson is away on business.

The Rev. Ponder, District Missionary, will lecture here Saturday morning at 11 o'clock, Saturday evening at 8:45 o'clock and Sunday evening at 8:45 o'clock, starting April 24. Everyone is urged to attend.

Mr. and Mrs. Charles Wesley and Charlene, visited Sunday in the Alvin Wesley home.

Mrs. C. M. Rogers, who has been quite ill, is improving rapidly.

Mrs. E. W. Schaeffer and Mrs. Harney Rogers entertained the Centerview club members and their families, in the home of Mrs. Schaeffer Friday evening with a forty-two party. Chicken salad sandwiches, cookies and iced tea were served to those present.

PRIMITIVE BAPTISTS

The Primitive Baptists will hold services Sunday at 11 o'clock at the court house.

Elder E. P. McNeill will preach.

Three hundred thousand women will be in transportation jobs before the war is over, estimates an official of the Office of Defense Transportation.

Canyon Air News

Hello Folks:

This week is a busy one for all of us out here. Tommy Williams, C. A. A.—W. T. S. Procurement official, in Amarillo, and his assistant, Betty Scott have begun chasing up airplanes for us, stopping out here as a starting point. They seem to have run into an odd situation—they have no trouble locating the airplanes, but to find the owners presents no small problem.

In the next couple of days, our instructors are going to double as ferry pilots, in that the ships for the new Army program are scattered over Texas. But "s" Funny—we have heard no complaints about this "bus man's holiday."

Those persons, belonging to a flying club, and who are working up their hours in order to become instructors, ferry pilots, etc. are permitted to continue, for the present. We have one flying club out here; all the rest of our planes are on the program. But, if enough people, with a definite purpose in mind, wish to form other clubs we will be glad to offer any assistance, or furnish information. We believe this proposition worthwhile, since there is a great demand for civilian pilots to be used in detached—in connection with the air force. We might stress here, that the Government is behind all those working toward this goal; and closing down on civilian flying is only in those cases where there is unnecessary flying being done.

Mrs. Dixie Cox, wife of Wesley Cox, assistant airport manager, has returned from a short vacation.

W. Harrison, instructor has returned from a visit home, ready to "dig in" on the new program.

K. G. Fincher, chief flight instructor, has his hands full these days. He has been checking out our cadets, as they complete their course, and the rest of the time, travels about inspecting, and preparing planes to be ferried back to us. He has unbounding energy, and with an "up and at 'em" attitude, it would be hard indeed, not to emulate him.

Until next week—we remain,
The Gang in the Pilot House.

Baptist Church Accept Bonds For Debt

The First Baptist Church of Canyon is accepting War Bonds from members and friends with which payment will be made on the church debt. Volunteers have bought nearly a thousand dollars worth of bonds for the church during the past week, and the debt can thus be reduced to about $4,150. Work is continuing on the building and during the past two and one half years nearly $6,000 have been spent toward completion of the building. With the fine attendance and good volunteer offerings now being given, it is the hope of church leaders that the entire mortgage debt can be paid within the next few months.

The church owns free of debt three lots north of the building where a pastor's home will be built when war-time restrictions permit, and the two lots west of the building (also free of debt) are being made into a small park and parking lot for the use of people who drive to church services.

To Use Pipe Organ In Easter Service

Work of electrifying the pipe organ at the Methodist Church will be completed this week. The organ will be used Sunday for the first time.

Mrs. K. E. Frieze, organist, will play special Easter music, Miss Marion Miller will sing "The Holy City," and an Easter anthem will be sung by the choir.

At the Sunday morning service babies will be baptized and children received into the church, states Rev. C. C. Armstrong, the pastor.

Here's How

Youths who can raise good mustaches ought to raise them; those who can't raise good ones should go clean-shaven. That's how to regulate fashions.

V-NEWS

From Randall County Mome Economists

When you eat in restaurants from now on, you cannot eat fish and meat at the same meal—only one; neither can you have canned vegetables and canned vegetable juice at the same meal. Foods are being rationed to a point where even our five cent pal, the hot dog, has been outlawed for the duration. From now on try macaroni, Boston baked beans and peanut dishes as main courses

Why shouldn't we start swapping? How about a community swap shop? You have articles that are not needed by you for the duration, and your neighbor has something you need. This isn't the time to stock up; new styles in everything will prevail after the war; so here's to war time economy.

Work Done For Air Force Unit

Prof. John Gillis and his department of industrial arts have been turning out much equipment for the Air Forces Training Detachment.

Construction included 38 clothes cabinets, 26 shower mats, 75 splits for first aid work, mail boxes, letter boxes, and stretcher bars.

Thirty-four signs marking the limits of the military area will be made up this week.

Rationed Farm Machinery

Farm machinery now in dealers' hands was released for distribution through the county farm rationing committees. Farmers wishing to buy rationed equipment must make application for its purchase through the county boards, which are expected to place the machinery on the farms where it will produce the most.

MEN

When you are ready for your

SPRING SUIT

remember we'll save you from $10.00 to $15.00 on it.

Of the last eight suits we've sold, six of them went to Amarillo. One man said he saved $17.50 under what it would have cost him up there.

Come in and look these suits over; get our prices before you buy.

We have no overhead to count, and can save you money on most anything you need in our line.

That's why our volume is running ahead of last year regarding of 575 boys from this county being gone. We thank you for this business.

HAVE YOU RENDERED YOUR

Property for 1943 Taxes

IT MUST BE RENDERED TO GET YOUR HOMESTEAD EXEMPTION

If you have not made your rendition, be sure to get in touch with your Tax Assessor-Collector and make certain that they are on the rendered roll.

Many people who are buying property from or through loan companies are under the impression that the Loan Company renders their taxes for them. This is incorrect. Unless you have made the rendition yourself your taxes are unrendered.

The law states that your property must be rendered before May 1st or such property will be placed on the UNRENDERED ROLL and this means that such property will be listed as unknown and you will not be entitled to the HOMESTEAD privilege and will have to pay the STATE TAX.

This also means that the property owner will not be consulted when the Board of Equalization meets and that such property can be lowered or raised in valuation with out their being notified of such change of valuation.

The tax assessor office will try to see you, but if you are missed please call by the office, and the Tax Assessor-Collector will see that you are placed on the rendered roll.

Your cooperation will be appreciated very much

M. E. Cantrell
